FTTP Network Interface Device
COYOTE® DEN
DEMARCATIION ENCLOSURE

 COMMUNICATIONS  ENERGY  SPECIAL INDUSTRIES  SOLAR

COYOTE®
FIBER OPTICS

THE COYOTE DEN PROVIDES SUPERIOR PROTECTION FOR ELECTRONICS AT THE NETWORK DEMARCATION POINT

Fast, Easy Installation

- Mounts in the wall between 2' x 4' studs
- Reversible swing and removable hinged door
- Perimeter sealing flange
- Pass through openings to feed cables directly into wall
- Drill point guides for drop cable entrance
- Flange mounting
- Equipment panel mounting bosses

Versatile

- Large interior accommodates ONT, battery back-up, interface and structured wiring components
- Thermally protects lower cost, non-hardened electronics by venting to home's interior
- Electrical box mounting and standard receptacle to provide internal power
- Compatible with COYOTE fiber management hardware and splice trays

Customize to Your Exact Requirements

- Accommodates custom interior equipment panel designs
- Option to engrave company logo on front door

PLP Reliability

Each Preformed product passes a series of comprehensive laboratory and field tests before the first unit is shipped. The COYOTE DEN is no exception.

The COYOTE DEN is UL/CSA listed and meets NEMA 4 requirements for the most demanding environmental conditions.

Combine this with experienced engineering and dependable field support, and you've got the level of reliability that PLP is known for.

For more information about the COYOTE DEN, contact our Customer Service Group directly at 440.473.9110.

Superior Equipment Protection

- Double wall, foam insulated construction
- Molded of flame-retardant, impact and UV resistant thermoplastic
- Gasketed/lockable exterior door seals against pressure washers
- In-the-wall mounting protects drop and premise wiring cables

Patent Pending
